### **TRI Participates in Walk to End HIV on the National Mall**

*Washington, D.C. (Saturday, October 25, 2014):* For the 6<sup>th</sup> consecutive year, TRI joined more than 5,000 walkers and runners in support of Whitman Walker's Walk to End HIV. TRI raised awareness and funding for Whitman-Walker Health, a non-profit community-based health organization, through participating in the annual Walk to End HIV this past weekend at Freedom Plaza in Washington, D.C.

The Walk to End HIV is a 5k walk/run fundraiser that benefits Whitman-Walker Health, which supports its mission to provide high-quality, comprehensive, and accessible health care to those who are affected by or infected with HIV/AIDS. The Centers for Disease Control and Prevention estimate that more than one million Americans are living with HIV infection, and almost 1 in 6 (15.8%) are unaware of their infection. In Washington, D.C. alone, an estimated 15,000 residents are living with HIV. The Walk to End HIV funds provide support for free legal services, public benefits, counseling, medical visits, medication, mentoring, and mental health therapy, among other services.

Each year TRI employees are encouraged to join in the event to enjoy the opportunity to support the community and taking part in healthy activity. TRI covers the registration fee/donation for each employee who participates.

**About TRI:** Technical Resources International, Inc. is a full-service contract research organization plus. TRI's areas of expertise include clinical trial operations, communications, data management & biostatistics, information technology, quality assurance, regulatory affairs & medical writing, safety & pharmacovigilance, and toxicovigilance & health assessment.
